

PowerBridge VTS26X

Steel-Deck Weighbridge

METTLER TOLEDO

Benefits of VTS26X Truck Scale

Reliable Performance that Lasts

VTS26X steel-deck weighbridge delivers reliable performance to maximize uptime—from fast installation through long-term daily operations—enhanced by digital technology for real-time insights.

Strength that Endures

Keep your operations running longer and stronger with engineered Q355B high-strength steel and robotic welding technology, superior load distribution, and proven durability for unmatched reliability and uptime.

Insight-Driven Reliability

Harness The Power to Do More™ with optional POWERCELL® technology to proactively monitor system health, swiftly identify issues, and minimize downtime, empowering you to maintain peak performance and maximize productivity.

Install Fast, Fit Anywhere

Install with confidence anywhere using our containerized modular design for rapid setup that accelerates project timelines and adapts seamlessly to any site.

Lightning Protection

VTS26X has been tested to withstand lightning strikes up to 80,000 A (POWERCELL PDX), 29,000 A (POWERCELL GDD).

PowerBridge™ Performance Series

PowerBridge Performance Series truck scales are engineered for high traffic commercial operations.

Containerized PowerBridge™ Solutions

Accurate and Proven

Install Fast, Fit Anywhere

Each module of this scale can be separated in half for easy containerized shipping. Additionally, the steel deck structure is simple to assemble on site for efficient construction and expedited use—helping operations get up and running fast.

POWERCELL® Accuracy

When weighing thousands to millions of tons per day, accuracy is key to minimizing waste and maximizing profits. The weighbridge utilizes trusted POWERCELL technology, offering outstanding accuracy, reliability, and uptime. Lightning protection offers an additional benefit to remote locations.

Weighbridge Service Solutions

Tailored to Fit Your Needs

METTLER TOLEDO Service delivers resources to enhance your efficiency, performance, and productivity. Explore our service offerings below or reach out to your local METTLER TOLEDO representative to find the best fit for you.

Warranty Coverage

All warranties are not created equal. Coverage can vary greatly from one supplier to the next. It is critical to ask about parts, labor, travel, calibration, environmental protection, stipulations, and more when exploring various warranty offerings.

Performance Upgrades

Load cells, indicators, peripherals, and software upgrades enhance the accuracy, reliability, and functionality of your truck scale beyond its current capabilities. With POWERCELL® upgrade and conversion kits, you can protect profitability and extend the life of your asset, all at a fraction of the cost of a new scale.

Professional Installation

Establish full confidence in your equipment from day one. Our expert technicians execute installation and testing, full system setup and calibration, setup of standard operating parameters, and user and maintenance familiarization. Simplify compliance with site, regulatory, and quality requirements.

Asset Maintenance

Regular maintenance enables reliable performance, compliance, and budget control. With insight into asset performance, you can minimize unplanned downtime and maintenance costs. Extend asset life with calibration, powerwashing, replacement of worn parts, and lubricating of the load cells and receivers.

Care Packages

Care Packages keep your operation running like clockwork. Crafted to cater to your specific needs, our packages provide preventive maintenance, replacement parts, and flexible support options.
